

19-TH FORUM FERROUS AND NON-FERROUS SCRAP METALS

Moscow International Recycling Expo -2024

March 4-7

WORLD TRADE CENTER

Moscow, Krasnopresnenskaya nab., 12

ABOUT THE EVENT ON March 4-7, 2024

Announcement

In 2024, MIR-EXPO and the 19th Ferrous and Non-Ferrous Scrap Forum will be held at the World Trade Center on March 4-7.

Delegates of the largest industry event in Russia are expected to:

- 20 +** specialized sessions and conferences,
- 30 +** considered segments of the scrap and metals market (ferrous, non-ferrous, precious scrap, electronic scrap, steel, cast iron, copper, aluminum, lead, tin, zinc, HBI, ore, ferroalloys, rare earth metals, brass, bronze, tinplate, recycling of vehicles, batteries, tires and rubber, plastic, glass, paper, class 1-2 waste, etc.)
- 60 +** stands, exposition of equipment, services, digital and analytical services,
- 75 +** speakers, leading domestic and international experts,
- 1000 +** market leaders, only professional target audience

REASONS TO TAKE PART AND UNIQUE FORMAT

REASON 1. Opportunity to influence the development of the industry. Development of real solutions and proposals on the margins of the forum.

Business events of Rating Agency Rusmet and National Recycling Association RUSLOM.COM are not just standard reports, discussions and coffee breaks. The organizers do not only play the role of conference makers, but they themselves are constantly involved in shaping trends in the scrap and metal market in dialogue with the authorities, having 25 years of experience in information, analytical and public work. Therefore, the content of each forum is unique in content and value, and delegates have the opportunity to use the business platform to convey the position of business to the state level.

REASON 2. Search for new clients and atmosphere. The scrap metal industry is in a state of reform, regularly experiencing upheavals. Many people know the feeling that you are Don Quixote, fighting alone with windmills, or Robinson Crusoe, who was left alone with problems in the middle of the ocean.

During the three days of the business program at the Scrap of Ferrous and Non-Ferrous Metals forum, you will meet market participants and government representatives from 88 regions of the Russian Federation and 10 countries of the world, saving a lot of time and money on business trips and organizing negotiations. Undoubtedly, personal acquaintances open up more opportunities, and the advantage of major industry events is that they are attended by owners and top managers. The effectiveness of participation will be even higher if you can invite them to your stand.

REASON 3. Exchange of experience. Strong players and like-minded people gather on the site, with whom it is interesting and useful to communicate. Our forum is the largest business event on the Russian scrap market with a 19-year history, with the participation of iconic representatives of the industry, which makes it possible to understand where scrap processing and recycling are heading in our country and in the world. You can find out what new companies from different countries offer, evaluate the possibility of adapting innovations to the Russian market, get acquainted with the most advanced technologies and solutions. And of course, listen to market forecasts from leading experts, opinions on the state of business from colleagues in the shop, and assessments of legislative trends from relevant departments.

REASON 4. Strengthening the image. The company's reputation and brand recognition in the scrap market are often worth more than money. The industry is highly competitive and not transparent, which suggests that banks and metallurgists are picky when dealing with clients. Proper positioning of the company makes it possible to increase the efficiency of trade and procurement activities and reduce the risks of working with the regulator.

Promotion of equipment, services and technologies without an image component and customer loyalty is not at all effective. The result of participation is the strengthening of relations with existing customers, the search for new partners, the establishment of cooperation between the Russian and foreign industry communities.

REASON 5. Choice of business strategy. Are trade barriers and sanctions permanent? The scrap market was one of the hardest hit, dropping more than 30%. Managers face the difficult choice of cutting staff, getting rid of unprofitable assets, and shutting down investment projects. At the same time, options remain for new sales directions, the choice of state support measures, the reorientation of activities, and the increase in productivity when redistributing the company's resources. At the forum, you can learn a lot of success stories, choose your own tool for adapting to changing conditions.

PROGRAM Of the exhibitions on recyclable materials Moscow International Recycling Expo 2024 and INTERNATIONAL FORUM “FERROUS AND NON-FERROUS SCRAP METALS-2024»		
March 4-7, 2024 WORLD TRADE CENTER 5* Moscow, Krasnopresnenskaya nab., 12		
Day 1. (March 4, Monday) General meeting of the National recycling association RUSLOM.COM TOPIC: NEW STANDARDS AND RULES, REQUIREMENTS FOR SRO MEMBERS AND MEMBERSHIP PROCEDURE European hall, 2 floor		
Installation of exhibition exposition in the CONGRESS HALL and FOYER 2nd floor		
Installation of the exposition		08:00-23:00
Registration of the exhibitors, sponsors. 2 floor, foyer, entrance from the hotel		10:00-18:00
