"BAT, best available technology for Car Dismantling"

11.40 -11.45 Viktor Haefeli, Owner of Smart Resources, Switzerland
Introduction to recycling cars II

11.45 - 12.00 Alekseeva Tatiana, MTB Recycling, France
Solutions for the complete recycling of industrial car waste: cables, tires, radiators, aluminum scrap, batteries, plastics, etc."

12.00 -12.30 Coffee Break

12.30 -12.35 Viktor Haefeli, Owner of Smart Resources, Switzerland
Introduction to recycling cars III

12.35 - 12.50 Arkady Smirnov, Representative ECO-Carbon LTD, Switzerland
Shredder waste fraction to energy for the scrap yard and region. Secondary metals for industry

12.50 - 13.00 Vera Myasoedova, Expert of Russian Academy of Sciences
Innovations for tire recycling approach

Recycling of Waste Tires to Composites and Cement's Plants Fuel

13.00 - 13.15 Alexander Fuki
Thermal Non-polluting tyres treatment project.

13.15 - 14.00 Session on recycling of tires and rubber products.

Organized by: Shinoecologia Association.

Moderators: Director Perlina Zhanna Vasilievna, Vice-president Krents Evgeniy Robertovich

Legal, economic, environmental and technological issues of worn tires recycling and use of the recycled products.

The annual volume of worn tires generation in the Russian Federation is more than 800 thousand tons. Over the 3 years of the development of EPR system, the volume of tires recycling has increased threefold from 15 to 40% of the generated volume. Modernization of existing production is carried out at the expense of own funds of tires recycling enterprises and tire manufacturers; proposals are prepared and contracts for the supply of modern, efficient equipment are concluded. Implementation of the projects will provide an increase in tires recycling volumes up to 55-60% by 2021.

Among the speakers of the session:

leading experts in the field of the worn tires treatment in the Russian Federation

- **Director of Shinoecologia Association Perlina Zhanna Vasilievna,**
- **Vice-president of Shinoecologia Association Krents Evgeniy Robertovich**

Solutions for the complete recycling of industrial car waste: cables, tires, radiators, aluminum scrap, batteries, plastics, etc.”

14.00 - 15.00 Lunch

15.10 - 17.00 Continue of the Round table: Car recycling, practice of cutting carriages and ships

Moderator: Ignatov Vladimir Ilyich, Chief Specialist of the Federal Scientific Agroengineering Center VIM, expert of the Association NP NSRO "RUSLOM.KOM"

15.10-15.30 Sosin Dmitriy Vladimirovich

Manager of the company Horst Sprenger GmbH Recycling Tools, Germany
Application of the technology of cutting railcars and ships with mounted hydraulic shears for metal.

15.30 - 15.50 Ignatov Vladimir Ilyich

Doctor of Technical Sciences, Chief Specialist

Gerasimov Valeriy Sergeevich

Head of the laboratory of the Federal Scientific Agroengineering Center VIM.

Agricultural machinery recycling system.

Creation of a unified approach to the system of recycling of end-of-life vehicles, agricultural equipment, road construction equipment and special technical equipment.

16.00 - 17.00 Conclusion of the business program of the exhibition and events

PARALLEL SESSIONS OF THE 3RD DAY (HALLS A,B,C,D)

11.00- 16.00 VAT on scrap metal. Reporting, testing, methodology and optimization. Practical seminar with the experts of the Federal Tax Service and the Ministry of Finance. (Hall B)
